QUESTIONS

20 / 20 completed

Car-Const

CAR-CONST

Write a Java program to create a class called Car with a constructor that takes in the make, model, and year of the car, and a method to print out the car's make, model, and year.

PROGRAM EDITOR

Java

Run

Save

```
1 class Car {
2     private String make;
3     private String model;
4     private int year;
5
6     // Constructor that takes make, model, and year
7     public Car(String make, String model, int year) {
8         this.make = make;
9         this.model = model;
10        this.year = year;
11    }
12
13    // Method to print out the car's details
14    public void printCarDetails() {
15        System.out.println("Make: " + make + ", Model: " + model +
16    }
17
18    public static void main(String[] args) {
19        // Example usage:
20        Car myCar = new Car("Toyota", "Camry", 2022);
21
```

OUTPUT

Compilation Error:

C:\Windows\TEMP\sandbox_192311149RA_6a7e1a8820ee56.34355460\Mai
n.java:7: error: invalid method declaration; return type
required

```
    public Car(String make, String model, int year) {
```
