L1-Q1. (E) Composite

j

CODE

```
import java.util.Scanner;

class Main{

    public static void isComposite(int n){
        boolean valid = true;
        for(int i = 2;i<n;i++){
            if(n%i==0){
                valid = false;
                break;
            }
        }
        if(!valid){
            System.out.print(n+" ");
        }
    }

    public static void main(String[] args){
        Scanner sc = new Scanner(System.in);
        int a = sc.nextInt();
        int b = sc.nextInt();

        if(a>b){
            int temp = a;
            a = b;
            b = temp;
        }else if(a==b){
            System.out.println("Both numbers are same.No consecutive numbers exists");
        }
        else{
            for(int i = a+1; i<b; i++){
                isComposite(i);
            }
        }
    }
}
```

OUTPUT 14 15 16 18

L1-Q2. (E) Hollow square

j

CODE

```
import java.util.Scanner;

class Main{

    public static void main(String[] args){
        Scanner sc = new Scanner(System.in);

        int n = sc.nextInt();
        String symbol = sc.next();
        for(int i = 0;i<n;i++){
            for(int j = 0;j<n;j++){
                if(i==0 || i==n-1 || j==0 || j==n-1){
                    System.out.print(symbol);
                }else{
                    System.out.print(" ");
                }
            }
            System.out.println();
        }
    }
}
```

OUTPUT

```
#####
#      #
#      #
#      #
