QUESTIONS

8 / 8 completed

Sort

SORT

Write a Java program to create a list of integers and sort them in ascending order using the Collections framework.

PROGRAM EDITOR

Java

Run

Save

```
1 import java.util.*;
2
3 public class SortIntegers {
4     public static void main(String[] args) {
5         Scanner scanner = new Scanner(System.in);
6         List<Integer> numbers = new ArrayList<>();
7
8         System.out.println("Enter the number of integers you want to sort:");
9         int count = scanner.nextInt();
10
11         System.out.println("Enter " + count + " integers:");
12         for (int i = 0; i < count; i++) {
13             numbers.add(scanner.nextInt());
14         }
15
16         // Sorting in ascending order using Collections framework
17         Collections.sort(numbers);
18
19         // Displaying the sorted list
20         System.out.println("Sorted (Ascending): " + numbers);
21
```
