Check

CHECK

Write a Java program to check if a given string contains only digits.

PROGRAM EDITOR

Java

Run

Save

```
1 import java.util.Scanner;
2
3 public class Main {
4     public static void main(String[] args) {
5         Scanner scanner = new Scanner(System.in);
6
7         // Reading the input string
8         if (scanner.hasNextLine()) {
9             String input = scanner.nextLine();
10
11             // Calling the method to check if it contains only digits
12             if (isOnlyDigits(input)) {
13                 System.out.println("True");
14             } else {
15                 System.out.println("False");
16             }
17         }
18
19         scanner.close();
20     }
21 }
```

OUTPUT

False

INPUT

123456
