QUESTIONS

20 / 20 completed

Find

FIND

Write a Java program to find the index of a given character or substring in a given string.

PROGRAM EDITOR

Java

Run

Save

```
1 import java.util.Scanner;
2
3 public class Main {
4     public static void main(String[] args) {
5         Scanner sc = new Scanner(System.in);
6
7         System.out.println("Enter the main string:");
8         String str = sc.nextLine();
9
10        System.out.println("Enter the character or substring to search:");
11        String target = sc.nextLine();
12
13        int index = str.indexOf(target);
14
15        if (index != -1) {
16            System.out.println("Index found: " + index);
17        } else {
18            System.out.println("Not found. Index = -1");
19        }
20
21        sc.close();
22    }
23 }
```

OUTPUT

```
Enter the main string:
Enter the character or substring to search:
Index found: 5
```

INPUT

Hello World
World
