QUESTIONS

20 / 20 completed

Occurrence

OCCURRENCE

Write a Java program to count the number of occurrences of a given character in a string.

PROGRAM EDITOR

Java

Run

Save

```
1 import java.util.Scanner;
2
3 public class Main {
4     public static void main(String[] args) {
5         Scanner sc = new Scanner(System.in);
6
7         // Taking the string input
8         String inputString = sc.nextLine();
9
10        // Taking the character input
11        // We read the first character of the next input line
12        char targetChar = sc.next().charAt(0);
13
14        int count = 0;
15
16        // Loop through the string to count occurrences
17        for (int i = 0; i < inputString.length(); i++) {
18            if (inputString.charAt(i) == targetChar) {
19                count++;
20            }
21        }
```
