Replace

REPLACE

Write a Java program to replace a specified character with another character in a given string.

PROGRAM EDITOR

Java

Run

Save

```
1 import java.util.Scanner;
2
3 public class Main {
4     public static void main(String[] args) {
5         Scanner sc = new Scanner(System.in);
6
7         // Taking the string input
8         System.out.println("INPUT:");
9         String str = sc.nextLine();
10
11        // Taking the character to be replaced
12        char oldChar = sc.next().charAt(0);
13
14        // Taking the new character
15        char newChar = sc.next().charAt(0);
16
17        // Performing the replacement
18        String replacedString = str.replace(oldChar, newChar);
19
20        // Displaying the output
21        System.out.println("OUTPUT:");
```
