QUESTIONS

20 / 20 completed

Split

SPLIT

Write a Java program to split a given string into an array of substrings based on a specified delimiter.

PROGRAM EDITOR

Java

Run

Save

```
1 import java.util.Scanner;
2 import java.util.Arrays;
3
4 public class Main {
5     public static void main(String[] args) {
6         Scanner sc = new Scanner(System.in);
7
8         // Reading the input string
9         if (sc.hasNextLine()) {
10             String inputString = sc.nextLine();
11
12             // Reading the delimiter
13             if (sc.hasNextLine()) {
14                 String delimiter = sc.nextLine();
15
16                 // Splitting the string using the delimiter
17                 // We use Pattern.quote to ensure special characters
18                 String[] substrings = inputString.split(java.util.regex.Pattern.quote(delimiter));
19
20                 // Printing the resulting array
21
```
